Security Academy

E-LEARNING

AEC

With our short and simple videos, your employees will learn everything they need to know about information security, the ways to protect information and how to prevent it from leaking.

Our courses included all critical cybersecurity areas:

- Basic Secure Network Behavior
- Password Security
- Secure Internet Browsing
- Secure Information Disposal
- Out of office security
- Secure E-mail
- Storing data on USB
- Information Classification
- Mobile Device Security
- Employee Security Incident Reaction

AEC Security Academy benefits

Entertaining format
Courses in the form of engaging animated videos.

Short videos
The average course length is set to 6 minutes. This is the effective duration for the communicated information, since the users are not losing attention and listen to the content being communicated.

3 languages
Czech, Slovak and English localization.

Testing
There is a test at the end of each course to verify the attained knowledge.

Reporting
Obtaining a well-arranged report on the progress of the learning.

Created by IT security specialists
Courses directly from the specialists in IT security.

Webinars
Access to webinars organized by us reacting to the current situation in the cyber world.

www.aec.cz

- User environment modification with your corporate logo and colour design

Chose the solution right for you
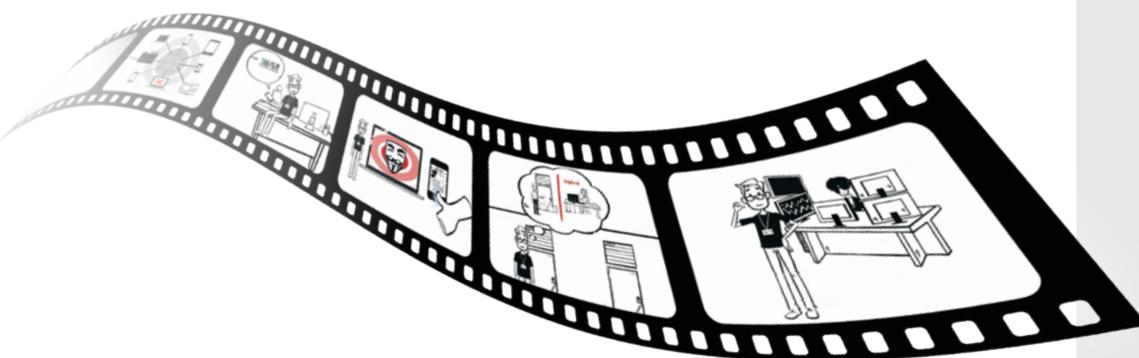

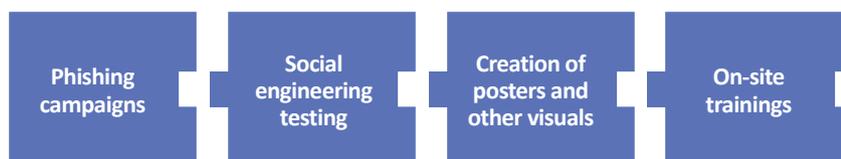

Providing courses on our platform

Join to our platform and you can start the whole learning process almost immediately. We will instruct your administrator, therefore, he will be able to import and manage users, assign courses, create reports, plan the training process and send e-mail notifications. All this with our support and maintenance.

Providing courses on your platform

Do you have your own platform and you want to use it exclusively for trainings? You can! We will provide you with our courses in a format suitable for their easy deployment into your education platform.

Create secure corporate culture

The e-learning platform is only a part of the process aiming at obtaining an overall security awareness in your company. To support this goal, we offer the following services as well:

Phishing campaigns	Social engineering testing	Creation of posters and other visuals	On-site trainings

About AEC

AEC is part of the KKCG group. We have a strong position in the information security market, where we operate for almost 30 years. We proudly hold this position and sustain it with our professional work, accountable attitude to all tasks and results we bring. We offer a long-term relationship based on knowledge, understanding, and mutual trust to our clients and employees. Our employees are experts in different fields of IT security and the combination of their proficiency and experience is what creates a synergic effect.
